"LIBERTY LIGHT"

To Commemorate the Underground Railroad

Xenia Gazette.

Xenia, as one of the most famous stations on the old "underground railroad," by which slaves were helped to escape from the South before and during the war, should be interested in a commemoration of the underground railroad which is being made at Ripley, Ohio.

A light is to be kept burning constantly in the narrow window of John Rankin's home in that city, just as it was in former days, as a beacon of freedom, the last station on the underground railroad, to the fleeing slaves. It has been suggested that Xenia provide some similar token of her part in the good work.

A slight rise is expected at headwaters, but the effect will scarcely be perceptible here.

The Staley's engine will be installed on the Graceland as soon as low water sets in.

The freight movements to upriver points have been very good during the past week. All the packets are expecting a heavy freight business all along the river as soon as the mud on the country landings dries up.

Roofters in the Steel City demanded \$60 per month at Clendenan and because they were run off of the boat, threw stones and chunks of coal at the six men that remained. The "Steel City" mate fired a pistol into the gang that scattered them in all directions. Nobody was killed or seriously injured.

IT GROWS HAIR

Here Are Facts We Want You to Prove at Our Risk

Marvelous as it may seem, Rexall "93" Hair Tonic has grown hair on heads that were once bald. Of course, in none of those cases were the hair roots dead, nor had the scalp taken on a glazed, shiny appearance.

Rexall "93" Hair Tonic acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet requisite, is delicately perfumed, and will not gum or permanently stain the hair.

I want you to get a bottle of Rexall "93" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out and promote an increased growth of hair, and in every way give entire satisfaction, simply come back and tell me, and without question or formality I will hand back to you every penny you paid for it. Two sizes, 50c., and \$1. Sold only at my store—The Rexall Store, Thos. J. Chenoweth, corner of Second and Sutton streets.

CHILD WAS SICKLY

Mother Says, "I Think Vinol Saved Her Life"

Parents are wise in trying to break up children's coughs quickly, but they are not always as wise as this mother in the means they adopt. Mrs. Willis Van Inwegen of Bloomingburg, N.Y., says: "My small girl had bronchitis all winter till the doctor said it was chronic and we were afraid we would lose her. I commenced giving her Vinol three times a day and now she is growing fine. I think Vinol saved her life."

Children like to take our delicious tonic, Vinol, because it is pleasant. And it is much better for them than so called "cough medicines" for they have no strengthening power, while Vinol builds up the body and makes the blood rich. Give Vinol to your delicate rundown children (and take it yourself if you are not as strong as you should be), and you will be delighted with the results. If you are not we give back your money. W. D. Cochran, Col. Nelson, B. D. Wilson and S. J. Pugh, representing the C. and O. Railroad, met with the City Council Monday night and took up the question of an amicable settlement of the difference between the city and the road over their right to use Third street.

The Council made them a proposition to give them title to the right of way over Third street if they would acquire land for and build a 25-foot macadam street and sidewalk on each side of the present street.

The C. and O. took the matter under advisement.

Basket Ball Notes

In a fast game last night George Fitzgerald's team defeated Jerome Zeigler's team by a score of 10 to 7.

The game was much faster than those played by the girls, and of a consequence, was much more interesting to the crowd of enthusiastic spectators.

Nothing can be said of the players individually, as they all put up a good game, showing the careful training of Dr. Quigley, their instructor.

The line-up was as follows:

FIRST TEAM.
Center.....Ber. Allen
Right Forward.....Jerome Zeigler
Left Forward.....Frank Hopper
Right Guard.....Tom Barber
Left Guard.....Vincent Killis
Substitute.....Hugh Power
*Captain.
*Played instead of Hopper in second half.

SECOND TEAM.
Center.....George Fitzgerald
Right Forward.....Ernest Ziegler
Left Forward.....Clay Smith
Right Guard.....Lyle Threlkeld
Left Guard.....Abe Galanty
Substitute.....Clarence Pollitt
*Captain.
*Played instead of Galanty in second half.

How to be Certain of Curing Constipation

Prejudice is a hard thing to overcome, but where health is at stake and the opinion of thousands of reliable people tell you that your remedy ought to stay with you, then you ought to lay it aside. This is said in the interest of people suffering from chronic constipation, and it is worthy of their attention.

In the opinion of legions of reliable American people, the most stomachic and bowel stimulating medicine is cured by a brief use of Dr. Caldwell's Syrup Peppermint. You may not have heard of it before, but do not doubt its merits on that account, because it has been so plausibly advertised. It has sold very successfully on word of mouth recommendation. Parents are giving it to their children day in and day out, given by their parents, and it has been truthfully said that more druggists use it personally in their families than any other laxative.

Persons wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can get it sent to the home free of charge by simply addressing:

W. H. Caldwell, 409 Monticello, Ill. Yea on a postal card.

BOTTOM OF THE DEEP

**Forever Will Hold the Bodies of
Titanic Disaster, Expert
Declares**

BALTIMORE, Md., April 18th.—"The bodies of the victims of the Titanic are at the bottom of the deep never to leave it," declared Prof. Robert W. Wood of the chair of experimental physics of Johns Hopkins University today.

"It is altogether improbable that any of the corpses will ever return to the surface, as is the case with bodies drowned in shallow water. At the depth of two miles the pressure of the water is something like 6,000 pounds to the square inch, which is far too great to be overcome by buoyancy ordinarily given drowned bodies by the gases generated in time."
